SPECIAL ISSUE

GEOMORPHOLOGY AND NATURAL HAZARDS

Proceedings of the 25th Binghamton Symposium in Geomorphology, held September 24–25, 1994 at SUNY, Binghamton, N.Y., USA

Edited by

M. MORISAWA

State University of New York at Binghamton, Department of Geological Sciences and Environmental Studies, P.O. Box 6000, Binghamton, NY 13902-6000, USA

CONTENTS

Dedication v
Preface ix

Geomorphology and natural hazards
P.A. Gares, D.J. Sherman and K.F. Nordstrom 1
Hazards: singularities in geomorphic systems
A.E. Scheidegger 19
The geomorphological dimensions of natural disasters
C.L. Rosenfeld 27
Geologic effects of hurricanes
N.K. Coch 37
Natural hazards of shoreline bluff erosion: a case study of Horizon View, Lake Huron
P.L. Lawrence 65
Geomorphological effects of tsunami run-up and backwash
A.G. Dawson 83
Distribution of hazard types in a drainage basin and its relation to geomorphological setting
H. Ohmori and H. Shimazu 95
Recent climatic change and catastrophic geomorphic processes in mountain environments
S.G. Evans and J.J. Clague 107
Erroneous perceptions of fluvial hazards
S.A. Schumm 129
Geomorphological understanding of floods
V.R. Baker 139
Geomorphic and hydrologic aspects of monsoon floods on the Narmada and Tapi Rivers in central India
V.S. Kale, L.L. Ely, Y. Enzel and V.R. Baker 157
Spatial variations in the magnitude of the 1993 floods, Raccoon River basin, Iowa
K.L. Prestegaard, A.M. Matherne, B. Shane, K. Houghton, M. O'Connell and N. Katyl 169
Flooding of property by runoff from agricultural land in northwestern Europe
J. Boardman, L. Ligneau, A. de Roo and K. Vandaele 183
Geomorphology applied to flooding problems of closed-basin lakes... specifically Great Salt Lake, Utah
G. Atwood 197
The landslide hazard in the Himalayas: geological control and human action
J. Gerrard 221
The geomorphology of some debris flows in the southern Sierra Nevada, California
J.V. DeGraff 231
Lichen dating of coseismic landslide hazards in alpine mountains
W.B. Bull, J. King, F. Kong, T. Moutoux and W.M. Phillips 253
The importance of earthquake-induced landslides to long-term slope erosion and slope-failure hazards in seismically active regions
D.K. Keefer 265

Large mid-Holocene and late Pleistocene earthquakes on the Oquirrh fault zone, Utah
S.S. Olig, W.R. Lund and B.D. Black 285
Global warming and permafrost in Eurasia: a catastrophic scenario
J. Demek 317
Geological hazards, vulnerability, and risk assessment using GIS: model for Glenwood Springs, Colorado
M. Mejía-Navarro, E.E. Wohl and S.D. Oaks 331

The Binghamton Symposia in Geomorphology 355
